BPO & CONTACT CENTER HIRING

BPO Hiring at Scale Is Breaking Your Team.

talvin

70%

of screening interviews are a waste of time

300 applications at **15 min each = 75 hours** of recruiter time — before a single hire is confirmed. Most of those candidates were never qualified to begin with.

talvin

NOT ALL AI INTERVIEWS ARE EQUAL

Static recording vs. Adaptive voice AI

ONE-WAY VIDEO

Fixed questions, recorded answers

Shows a rehearsed reply. No follow-up. No signal on how they handle the unexpected.

TWO-WAY VOICE AI

Real-time, adaptive conversation

Probes based on what they actually say. Reveals composure, reasoning, and communication under pressure.

talvin

WHAT GETS MEASURED

4 things a resume can never show you

01 **Communication clarity under pressure**
Pace, tone, and adaptability — live, not rehearsed

02 **Composure when the script goes sideways**
Curveball questions reveal how they actually respond

03 **Problem-solving depth**
Distinguishes reasoners from pattern-matchers

04 **APAC language and communication fit**
Calibrated for SL, India, Malaysia, Philippines, Indonesia

talvin

REAL APAC RESULTS

80%

reduction in screening time

RECRUITMENT FIRM

488 → 15

resumes to shortlist in one week, 80% less screening time

MANAGEMENT TRAINEE PROGRAM

460 → top 2%

96 AI interviews, elite shortlist of 10 identified, 100% transparent process

BEYOND COMMUNICATION

Don't ask how they'd handle it. Make them actually do it.

Job Tryouts put candidates inside **live AI-powered customer scenarios**. The AI persona responds dynamically to what they say and do — no script, no safety net.

30–45% reduction in employee turnover

talvin

STOP SCREENING. START HIRING.

4–5 week pipelines compressed into days.

AI interviews for BPO let you identify top communicators from hundreds of applicants — without burning out your recruiters or losing candidates to a faster competitor.
